

MolProbity Ramachandran analysis

3scj.H.pdb, model 1

82.9% (234/281) of all residues were in favored (90%) regions.

16.7% (47/281) of all residues were in allowed (20%) regions.

There were 0 outliers (0% total).

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.

Residue 147 (GLY) is in the allowed region.
